

THE 502KL

PRIMARY CARE SCALE WITH INTEGRATED DIGITAL HEIGHT ROD

The newest member of the number-one-selling family of physician scales, the all-digital Health o meter® 502KL features a fully integrated digital height rod and EMR capabilities, providing the optimum in quality, reliability, and ease of use. The 502KL, created to cater to various healthcare settings like doctor's offices, hospitals, clinics, and acute and long-term care facilities, showcases a market-leading built-in digital height rod, a spacious non-skid platform, and a reinforced base that ensures enhanced stability. The scale offers providers and patients an eye-level weight indicator, accommodating patients weighing up to 660 pounds. Its user-friendly digital interface provides a range of functions, including BMI calculation, hold/release, zeroing, taring, reweighing, recalling previous measurements, switching between KG and LB units, and clear and enter functions. The 502KL offers the best in its class extra-wide 8" wheelbase making transport easy. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently locked on the scale.

The industry-leading physician scale provides easy integration and seamless communication with today's EMR applications. The 502KL offers the option to incorporate wireless connectivity for interfacing with computers, EMR software, or other electronic devices.

With its low platform height, the 502KL is easy to set up and offers patients a more comfortable and stable weighing experience.

500HB

"live" wrap-around handlebar

The 500HB is a unique handlebar accessory for the 502KL and is easy to attach to any scale using the pre-drilled mounting holes. It provides the stability that many patients need without affecting the accuracy of the weight reading.

THERE'S STRENGTH IN OUR NUMBERS.

When you add up the numbers on our scale, it's not surprising that the 500KL family of scales is the most widely used scale in physician offices nationwide.
