

THE 2622KL

DIGITAL WHEELCHAIR AND STAND-ON SCALE WITH DUAL RAMPS AND EXTRA-LARGE PLATFORM, ADA COMPLIANT

The all-digital 2622KL is engineered with enhanced safety features to ensure a comfortable weighing experience for patients standing on the platform or for those who use wheelchairs. Designed for Americans with Disabilities Act (ADA) compliance, the dual ramps adhere to a 1:8 slope ratio and the handrail height is within the required 34"-38" range. The ramps and extra-large 32" x 40" platform feature a 2" edge protection to prevent roll-offs, and anti-slip caution tape on the ramps provide enhanced safety. The platform folds for storage, and built-in casters are included for added convenience and mobility. The scale has a weight capacity of up to 1,000 pounds (454 kilograms). As an all-in-one scale, the 2622KL meets the U.S. Access Board Standards for both stand-on and wheelchair scales, and is ideal for doctor's offices, hospitals, clinics, and acute or long-term care facilities. Additional features include an antimicrobial keypad, a wall-mounted display head, and a large non-skid platform.

The scale features a high-contrast color screen with user-friendly functions like BMI, hold/release, reweigh, recall, zero, KG/LB, tare, and pre-tare. The Everlock® function permanently locks the measuring unit (LB or KG). With a USB interface, it seamlessly integrates with EMR systems and connects to devices via Health o meter® Professional Connectivity Solutions.

The 2622KL is designed to meet the US Access Board's Standards. Medical facilities operated by state and local governments, also known as public entities, must comply with the MDE Standards for Accessible Medical Diagnostic Equipment, which are enforced by the Department of Justice.

- 32" wide x 40" deep platform
- 2" edge protection on platform
- 2" edge protection on ramps
- 1:8 running slope
- Slip-resistant platform
- Handrail support along the length of the platform
- 34" - 38" max. handrail height

THERE'S STRENGTH IN OUR NUMBERS.

When you add up the numbers on our scale, it's not surprising that the 2622KL provides a safe, accessible weighing experience.
