

THE 2622ADAKIT

ADA WHEELCHAIR & STAND-ON COMPLIANCE KIT FOR WHITE 2600 AND 2610 SERIES OF SCALES, CERTIFIED FOR ADA COMPLIANCE

The Health o meter® Professional 2622ADAKIT is an optional ADA Compliance Kit for the white 2600 series of scales. The kit converts a Health o meter® Professional 2600 series wheelchair scale into a dual purpose ADA compliant stand-on and wheelchair scale. Certified for Americans with Disabilities Act (ADA) compliance, the 2622ADAKIT includes new ramps, new feet, new handrail and platform and ramp edge guards with anti-slip caution tape on the ramps to provide enhanced safety and accessibility. The upgrade also replaces the existing handrail and fixed display head with a wall-mounted display head. Its easy to install on any existing white 2600KL and 2610KL series of scales, making it an ideal choice for doctor's offices, hospitals, clinics, and acute or long-term care facilities looking to meet the latest U.S. Access Board Standards for both stand-on and wheelchair scales.

Kit Includes:

- 2 ramps with edge guards
- platform edge guard
- handrail
- wall mount bracket for display head
- load cell connection cable
- required hardware

The 2622ADAKIT is designed to meet the US Access Board's Standards. Medical facilities operated by state and local governments, also known as public entities, must comply with the MDE Standards for Accessible Medical Diagnostic Equipment, which are enforced by the Department of Justice.

- 32" wide x 40" deep platform
- 2" edge protection on platform
- 2" edge protection on ramps
- 1:8 running slope
- Slip-resistant platform
- Handrail support along the length of the platform
- 34" – 38" max. handrail height
